

"I was given new tools, resources, and strategies to improve my overall leadership approach. Sue provided real world examples and advice on how to be a better leader and communicate better with my team. One specific area of growth occurred in how I handle conflict and difficult conversations. I am doing things completely differently now - turning something I used to avoid into something I address right away. The insights Sue provides are invaluable and I am looking forward to the next opportunity to be part of this group."- Jessica K, VP Client Services – Viden
